Q8. Translate the following paragraph into Urdu. (15)

"Water is fundamental to all forms of life. It constitutes about sixty percent of the human body and covers roughly seventy percent of our planet. However, only three percent of the earth's water is fresh water, and only one third of that is readily available for use. Contaminated water can cause cholera, typhoid, dysentery, and hepatitis. Regular handwashing with clean water and soap can prevent the spread of infections."

Note: For foreign/English-medium students: Q8 may be replaced by an essay.
